To Whom It May Concern:

RE: 2017 Wastewater System Improvements  
7 Mile Road & Blowers Drive (Pvt)

Dear Resident:

This year Alpine Township plans to replace sanitary sewer in part of 7 Mile Road and in Blowers Drive (Pvt) north of 7 Mile Road. The work will be done to reduce infiltration of ground water into the sanitary sewer system. The scope of the project includes replacement of sanitary sewer and laterals within the public road right-of-way or sewer easement, between the railroad tracks and the Mill Creek stream crossing. Roads and driveway approaches impacted by construction will be replaced. The attached map shows the project work area.

Alpine Township has contracted with Milbocker & Sons, Inc. to complete this project. **Work is scheduled to commence this weekend, September 16, 2017**, beginning with asphalt removal. Sewer replacement in 7 Mile Road will be completed first, followed by sewer replacement in Blowers Drive. Work is scheduled to conclude in November. Lawn restoration will be completed as much as possible this fall and will be evaluated in the spring to ensure adequate grass growth.

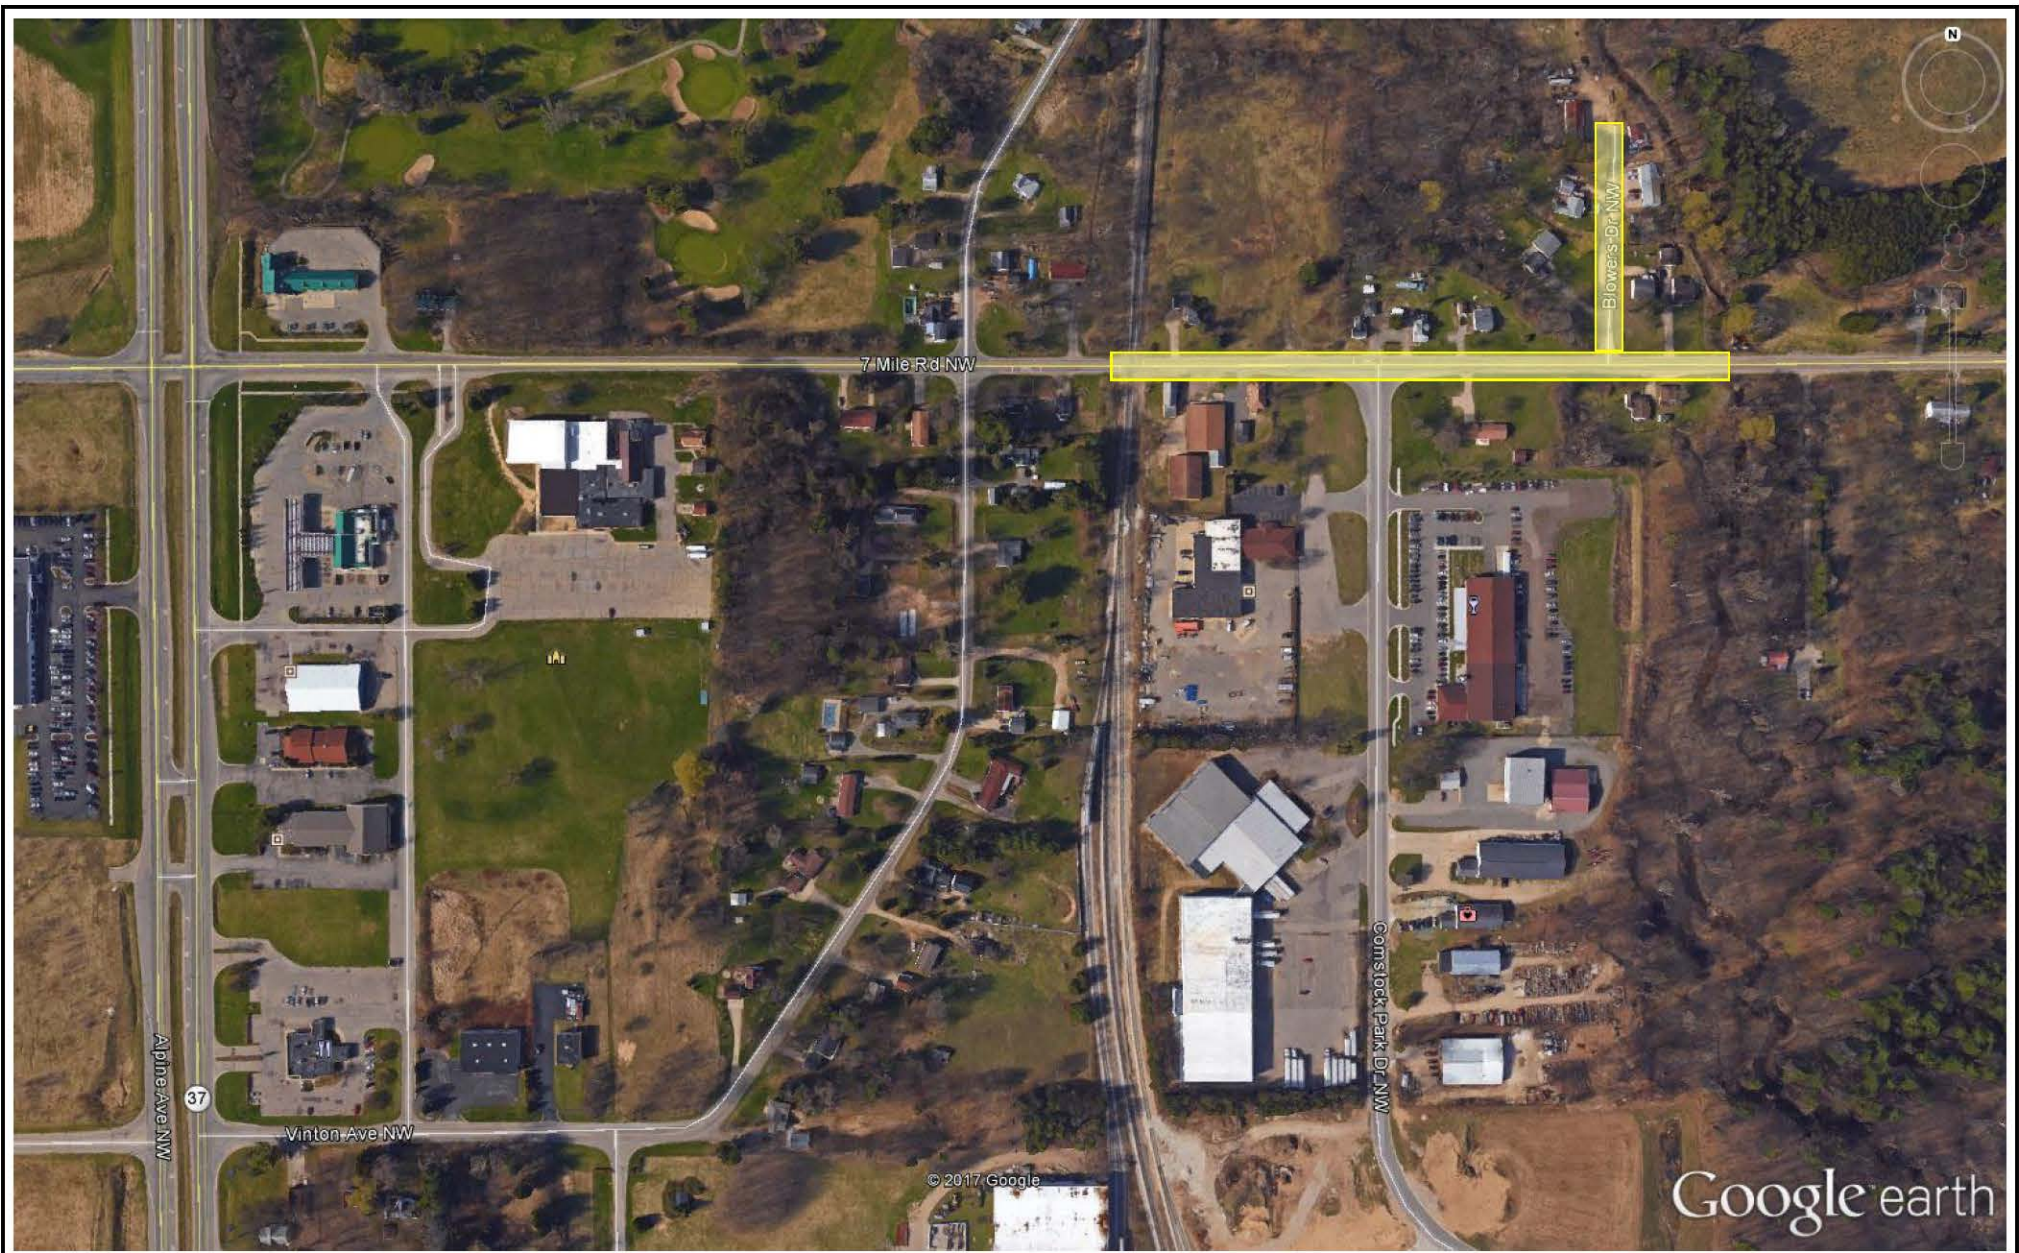

Due to the location of the sanitary sewer, this portion of 7 Mile Road will be closed to through traffic during construction. Periodically, the Comstock Park Drive entrance to 7 Mile Road also will be closed or only accessible from the east or west. Access to Comstock Park Drive businesses should be coordinated via 6 Mile Road during this construction project.

To facilitate mail service to 7 Mile Road and Blowers Drive properties, the Contractor will coordinate with you and the Post Office and may temporarily relocate your mailbox to a central location. The Contractor also will work with you and your trash hauler to maintain service. Individual driveways may be closed during the day but will be restored to a drivable condition after each work day.

If you have any questions about the project, please contact me at Township Hall or call Kevin Gritters, P.E., Prein&Newhof, at (616) 364-8491. We will work with you to ensure that the work can proceed with the least impact to you in a cost effective manner for the Township and our residents.

Sincerely,

Alpine Township
